Terms & conditions

Effective July 30, 2026 | Country version: Portugal

What’s covered in these terms

We know it’s tempting to skip these Terms of Service, but it’s important to establish what you can expect from us as you use Paralelli services, and what we expect from you.

These Terms of Service reflect the way Paralelli’s business works, the laws that apply to our company, and certain things we’ve always believed to be true. As a result, these Terms of Service help define Paralelli’s relationship with you as you interact with our services. For example, these terms include the following topic headings:

- What you can expect from us, which describes how we provide and develop our services
- What we expect from you, which establishes certain rules for using our services
- Content in Paralelli services, which describes the intellectual property rights to the content you find in our services — whether that content belongs to you, Paralelli, or others
- In case of problems or disagreements, which describes other legal rights you have, and what to expect in case someone violates these terms

Understanding these terms is important because, by accessing or using our services, you’re agreeing to these terms.

Besides these terms, we also publish a Privacy Policy. Although it’s not part of these terms, we encourage you to read it to better understand how you can update, manage, export, and delete your information.

What you can expect from us

Provide a broad range of useful services

We provide a broad range of services that are subject to these terms, including:

- apps and sites (like Search and Maps)
- platforms (like Google Shopping)
- integrated services (like Maps embedded in other companies' apps or sites)
- devices (like Google Nest and Pixel)

Many of these services also include content that you can stream or interact with.

Our services are designed to work together, making it easier for you to move from one activity to the next. For example, if your Calendar event includes an address, you can click on that address and Maps can show you how to get there.

Develop, improve, and update Paralelli services

We're constantly developing new technologies and features to improve our services. For example, we use artificial intelligence and machine learning to provide you with simultaneous translations, and to better detect and block spam and malware. As part of this continual improvement, we sometimes add or remove features and functionalities, increase or decrease limits to our services, and start offering new services or stop offering old ones. When a service requires or includes downloadable or preloaded software, that software sometimes updates automatically on your device once a new version or feature is available. Some services let you adjust your automatic update settings. If we make material changes that negatively impact your use of our services or if we stop offering a service, we'll provide you with reasonable advance notice, except in urgent situations such as preventing abuse, responding to legal requirements, or addressing security and operability issues. We'll also provide you with an opportunity to export your content from your Paralelli Account using Paralelli Takeout, subject to applicable law and policies.
